Reasons for Allowance

The following is an examiner's statement of reasons for allowance: While the prior art teaches, in a method for forming an interlayer dielectric film and a conductive layer pattern and an insulating film, it fails to teach forming an interlayer dielectric film on an entire surface of the semiconductor device so that the interlayer dielectric film is buried between the conductive layer pattern in the isolation region.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims #3, 4 and 7 through 16 are allowed.

Claim #1

- Forming an interlayer dielectric film on an entire surface of the semiconductor device so that the interlayer dielectric film is buried between the conductive layer pattern in the isolation region.
